SUMMARY

I am a currently a student at Brock University studying computer science with a minor in business. My education and my skill set have allowed me to complete multiple projects to; aid in my work, for my courses and for personal use. I have previous experience in java programming as well as website programing and development. I am very passionate about my work and I enjoy completing tasks and I am always eager to learn.

SKILLS

Computer

- Java Programming
- Data Structures
- HTML, CSS, PHP, Java Script

Other

- Communication
- Organization
- Team Player

EDUCATION

Computer Science (BSC) Candidate   2017 - Present

Brock University

I am currently studying computer science. In this field of study, I complete projects which require good problem-solving skills, interpersonal and communication skills. I have delivered quality projects alone and in conjunction with my peers involving the use of data organization, data abstraction and object-oriented programming. I complete assignments effectively, efficiently and on time.

Applied Business (BBA) Candidate   2017 - Present

Brock University

Concurrent to my BSC I am also completing a business minor. This program teaches the fundamentals and applications of many topics such as; operations management, finance, information technology, information systems, and accounting. I feel that this business perspective will compliment my technical skills. This will allow me to better understand specific project needs as well as prepare me for longer term career growth.

EXPERIENCE

Website Design, Freelance   2018 - Present

- Wrote and customized back end JavaScript
- Wrote and edited front end CSS and HTML

Market Staff, Shouldice   2019 - 2019

- Collaborated with coworkers
- Created a program which allowed me to complete my tasks more efficiently

Programming, Personal   2017 - Present

- Created and built websites from scratch using HTML, CSS and JavaScript
- Created Java programs and algorithms such as sorting algorithms, games and card tricks
